

UNIVERSITÀ DEGLI STUDI DI MILANO

Corso di Dottorato in
Scienze della Terra
(PhD, Earth Sciences)

Milano 2 ottobre 2018 - 5 ottobre 2018 - Course (5 CFU)

MATLAB FOR EARTH AND BIOGEOSCIENCES

Prof. Dr. Eric P. Verrecchia
Institute of Earth Surface Dynamics
University of Lausanne (Switzerland)

UNIL | Université de Lausanne

Program:

This course will be devoted to an introduction of data processing with Matlab for Earth and Biogeoscientists. After an introduction to the software, the following topics will be proposed: univariate statistics, regressions, multivariate statistics, spectral analysis, and an introduction to 3D data processing. The sets of data will include geochemical matrices, spatial data, and times series.
