

UNIVERSITÀ DEGLI STUDI DI MILANO

Corso di Dottorato in
Scienze della Terra
(PhD, Earth Sciences)

Milano 21 - 25 Settembre 2020 - Short Course (3 CFU) - Aula E

Terrestrial carbonates: diversity, biogeochemistry, and novel approaches of their genesis

Prof. Dr. Eric P. Verrecchia

Institute of Earth Surface Dynamics - University of Lausanne (Switzerland)

Program:

1. Mineralogy and biogeochemistry of vadose carbonates
2. The diversity of terrestrial vadose carbonates
3. Some examples of terrestrial vadose carbonates from the fossil record
4. Practical work: from thin sections of terrestrial vadose carbonate to their data processing
