

UNIVERSITÀ DEGLI STUDI DI MILANO

Corso di Dottorato in Scienze della Terra

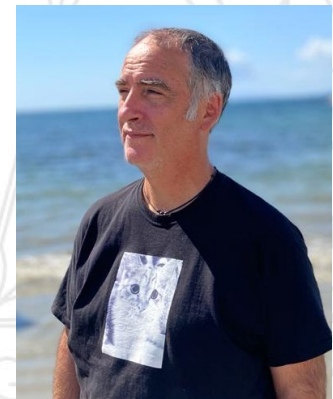

16-18 January 2023 - Short course (2 cfu, 2×5 hours) – Aula accoglienza Botticelli 23
Dipartimento di Scienze della Terra “A. Desio”, via Mangiagalli 34, Milano

Non-ambient in situ studies of thermoelastical behaviour and phase transition of minerals by Fernando CAMARA

PROGRAM

- Non ambient in-situ studies: SC-XRD (facts, devices, tools) HT, HP, HT/HT; Calibration of T and P; Accessibility problems; Equations of State (HP, HT); Examples
- Phase transitions (clinopyroxenes HT & HP, Lawsonite HT & HP, grossite HP) ; Expansion of Landau (spontaneous strain, order parameter, coupling elastic energy and order parameters)

Prof. **Fernando CAMARA**
Università di Milano
